## + TECHNICAL EXPERIENCE

**COMMUNITY GARDEN MANAGEMENT APP**                                                                 May 2023 to July 2023
**(Live) | (GitHub)**
The Community Garden Management App is a innovative and socially impactful platform designed to foster a sense of community and promote local sourcing of food. This app aims to bring neighborhoods closer together through the joy of gardening.
• Java with Springboot Framework: Used for the backend development, providing a robust and streamlined development experience.
• MySQL with Spring Security: Employed for data storage and secure authentication and authorization of users. Prepared statements and input validation are used to prevent SQL injection attacks.
• JSPs with Spring MVC, CSS, Bootstrap, and Tailwind: Rendered front-end view pages, maintaining a clear separation of data and application logic. Styled the user interface for an attractive and responsive design.
• JavaScript, Ajax, Full Calendar Plugin: Implemented interactivity and dynamic behavior on the client-side. Enabled asynchronous communication with the backend for seamless data retrieval. Utilized for visually displaying and managing events on a calendar for garden managers.
• Agile Development Process: Followed to ensure iterative and customer-centric development.

## + GRAPHIC DESIGNER

**FREELANCE · Graphic Designer**                                                                            Feb. 2020 to Dec. 2022
• Leveraged Adobe expertise to create visually engaging content, increasing clients' social reach and customer acquisition by up to 50%.
• Employed retouching/manipulation techniques, resulting in audience engagement with daily impression counts ranging from 100k to 300k.
• Demonstrated client retention with 7 out of 10 clients returning for services, delivering high-quality design work and generating earnings exceeding $50,000.

## + WORK EXPERIENCE

**ROMAN HEALTH PHARMACY**                                                                                       New York
**Pharmacy Technician**                                                                                      Sept. 2018 to Mar. 2020
