+ SUMMARY

Passionate software developer with strong problem-solving skills and a team-oriented approach. Self-motivated with excellent time management abilities. Possesses strong communication skills and experience with database management, Git, and version control systems. Prioritizes collaboration while meeting deadlines and requirements. Focuses on writing clean, well-tested, maintainable code. Continuously looks for ways to improve processes and optimize workflows. Skilled at designing robust data models and architectures. Excels at quick learning and leveraging new technologies. Driven to tackle challenges that have positive impacts for end users. Eager to join a high-performing product team and tackle challenges that positively impact end users.

+ PROJECTS

COMMUNITY GARDEN MANAGEMENT APP   May 2023 to July 2023
The Community Garden Management App is a innovative and socially impactful platform designed to foster a sense of community and promote local sourcing of food. This app aims to bring neighborhoods closer together through the joy of gardening.
• Java with Springboot Framework: Used for the backend development, providing a robust and streamlined development experience.
• MySQL with Spring Security: Employed for data storage and secure authentication and authorization of users. Prepared statements and input validation are used to prevent SQL injection attacks.
• JSPs with Spring MVC, CSS, Bootstrap, and Tailwind: Rendered front-end view pages, maintaining a clear separation of data and application logic. Styled the user interface for an attractive and responsive design.
• JavaScript, Ajax, Full Calendar Plugin: Implemented interactivity and dynamic behavior on the client-side. Enabled asynchronous communication with the backend for seamless data retrieval. Utilized for visually displaying and managing events on a calendar for garden managers.
• Agile Development Process: Followed to ensure iterative and customer-centric development.

+ EDUCATION

Coding Dojo | Colorado Technical University
Software Developer Computer Science
